OBJECTIVE

Passionate back-end developer with solid experience in Flask and Node.js (Express, NestJs). Eager to contribute skills to innovative projects and committed to continuous learning and growth. Aiming to further develop expertise while collaborating with talented teams in a dynamic environment.

EDUCATION

Bachelor of Building Technology Kwame Nkrumah University of Science and Technology.	2012 - 2016
--	-------------

EXPERIENCE

Backend Developer

Company Name

(October 2024 to date)

Strategic Structures Inc.(Remote)

- Developed and maintained back-end services using Django, PostgreSQL, Redis, and Celery for asynchronous task processing.
- Implemented efficient API endpoints, ensuring optimized database queries and system scalability.
- Handled partial DevOps responsibilities, including deployment automation using GitHub Actions for CI/CD pipelines.
- Collaborated with cross-functional teams to deliver high-quality software solutions.

Backend Developer (Intern)

Company Name

(June 2024 – August 2024)

HNG Internship (Remote)

- Implemented game room joining via links, avatar selection, and card validation.
- Added notification toggle and improved backend reliability.
- Maintained test cases for game functionality.

Truss Engineer

Company Name

June 2018 - May 2023

K.K Peprah Roofing Co. Ltd.

- Achieved an increased growth for K.K. Peprah Co. Ltd by preparing truss design drawings, estimating costs, and ensuring their approval.
- Led on-site truss installation at K.K. Peprah Co. Ltd, resulting in high tick improvement in project efficiency.

National Service Personnel

Company Name

October 2016- August 2017

Kpobikorpe Basic School

- Delivered engaging and effective math instruction to junior high school students.
- Delivered engaging and effective math instruction to junior high school students.
- Managed class activities, assessed student progress, and provided feedback.
- Contributed to creating a positive and supportive learning environment at Kpobikorpe Basic School.

Intern- Site Engineer

Company Name

July 2015- September 2015

Conpro Gh.Ltd

- Gained valuable experience in site supervision, stocktaking, stores management, and contract review at Conpro Ltd.
- Assisted in preparing bills of quantities, enhancing understanding of cost estimation processes.

PROJECTS:

Remote Bingo Game App

Contributed to a team effort in developing the Remote Bingo Game App. Participated in implementing features for joining game rooms via links, avatar selection, and card selection validation. Assisted in adding a notification toggle in user settings and enhancing backend reliability through validation and documentation updates. Collaborated on writing and maintaining test cases to ensure robust game functionality.

E-commerce APIs.

Developed RESTful APIs using Express and MongoDB Atlas for an e-commerce platform, facilitating user registration, product catalog management, and order processing. This was for my specialization webstack project. ([Try it here](#))

Airbnb Clone.

Created a full-stack web application using Flask, SQL, HTML, CSS, and JavaScript to replicate the functionality of the Airbnb platform, including user authentication, property listings, and booking management.

GitHub Link : [Airbnb](#)

Community Connect.

Developed a web application aimed at addressing restricted access to accurate community resources information. Utilized Vue.js for front-end development, Flask for back-end APIs, SQLALCHEMY for database management, and Bootstrap (Lux theme) for styling. Implemented a RESTful API architecture to ensure seamless communication between front-end and back-end components. This was for my foundation course project work

CERTIFICATION:

Specialized Training in Software Engineering (Backend Specialization) - ALX Africa (2023-2024)

ALX **ProDev Backend**- ALX Africa (2024-2025)

Technical Skills:

- Languages: Python, JavaScript, SQL, TypeScript
- Frameworks: Flask, Node.js, Express, NestJs, Vue.js, Django
- Database: PostgreSQL, MongoDB, MySQL
- Tools/Libraries: Git, Postman, SQLAlchemy, Mongoose, TypeORM, Sequelize, Prisma, Djongo, Redis, Celery, Docker

Soft Skills

- Collaboration
- Communication
- Team-Oriented
- Problem-Solving
- Adaptability

- Attention to Detail

EXTRA-CURRICULAR ACTIVITIES

- Contributed to open-source projects as a beginner in the tech space.
- Developed a blog post web application using Express.js and MongoDB, focusing on creating a robust and scalable platform for managing and publishing blog content.
- Active in tech communities, constantly exploring new technologies.
- Participating in the **ALX PRODEV Program** with a focus on backend development, contributing to continuous learning and professional growth.
